District & School Profile

The El Centro Elementary School District is located in Imperial County, and is surrounded by thousands of acres of California's most productive farming land. El Centro Elementary School District is comprised of nine elementary schools and two middle schools, and educates almost 6,000 students in kindergarten through eighth grade per school year. The district is committed to preparing its students for the future and dedicated to excellence in the realm of academics. All programs within the district are founded on the principle that "children come first."

King Elementary School serves students in kindergarten through sixth grade. During the 2012-13 school year, the school had an enrollment of 407 students including 6.9% in special education, 77.4% qualifying for English Language Learner support, 19.3% migrant education, and 91.4% qualifying for free or reduced price lunch. King Elementary School achieved a 2013 Academic Performance Index (API) score of 822.

Parent Involvement

Parents are encouraged to get involved in their child's learning environment either by volunteering in the classroom, participating in a decision-making group, or attending school events.

Parents stay informed of upcoming events and school activities through flyers, newsletters, parent conferences, progress reports, the school marquee, the school website, monthly calendars, and TeleParent automated telephone message delivery system. Contact any school office staff member at (760) 337-6555 for more information on how to become involved in your child's learning environment.

Curriculum & Instruction

School Leadership

The administrative team is comprised of the principal, who works closely with parents, teachers, and school staff. Principal Linda Morse is responsible for the day-to-day operations of the school and the overall instructional program. Coordinating efforts with the principal is the School Site Council, comprised of the principal, classified representatives, parents, and teacher representatives. The School Site Council meets monthly throughout the year to discuss school operational systems and educational concerns.

Principal Morse has been in the educational field for 25 years and serving King Elementary School for her first year in the 2013-14 school year. Previous positions held in other schools include: superintendent, principal, and assistant principal. Principal Morse holds a bachelor's degree in Liberal Studies, and a masters in educational leadership.

Specialized Instruction

All curriculum and instruction is aligned to the California State Content Standards and Frameworks approved by the State Board of Education. The instructional program is structured so that all students receive instruction appropriate to their learning level. Teachers use a variety of research-based instructional strategies and techniques using state-approved instructional materials to ensure academic success.

Students with special gifts and talents need more challenging curriculum and instruction. The Gifted and Talented Education (GATE) program is offered to students in grades 3 through 6 who have been identified as academically gifted through district-administered assessments. Students participate in GATE activities during regular school hours; activities are based upon a designated theme. Instruction is provided by teachers who are GATE Trained.

For students whose primary language is not English and who have limited English proficiency, King Elementary offers programs to help them acquire English as quickly as possible and prepare them to meet the state's academic content standards. English learners receive small group and/or individualized instructional support in the classroom from bilingual aides who collaborate with the student's teacher to provide support in areas of need. Some students may receive English Language Development instruction as a supplement to their regular language arts instruction. ELD instruction is provided through a team-teaching approach. For designated time periods, students regroup based on language fluency to receive targeted instruction at their proficiency level. King Elementary's teachers utilize Treasures series, a state-approved reading intervention program and textbook adoption. Students are monitored through the CELDT exam given throughout the year; results are used to evaluate and adjust individualized learning strategies. English learners are assessed annually using the CELDT exam (California English Language Development Test); results are used to evaluate student progress, intervention programs, and teaching strategies.

King Elementary's special education program is staffed by a special education teacher and resource specialist. Instruction is provided in the least restrictive environment and based on each student's Individual Education Plan (IEP). Students have access to a comprehensive curriculum and are mainstreamed into the general education class with in-class support in both small group and individual settings. A portion of instruction may be provided in a RSP/SDC combination class. The IEP team meets annually to establish goals and objectives, define academic instruction, evaluate the effectiveness of the student's plan, and make instructional adjustments as necessary. King Elementary takes advantage of the district's participation in the Imperial County Office of Education Special Education Local Plan Area (SELPA), which provide a pool of professional resources and expertise in the field of special education.

King Elementary provides a variety of intervention and remediation programs to support students' efforts to achieve academic success and reach grade level expectations. Using STAR test results, district benchmark assessments, and end-of-unit exams, teachers and administrators can identify students who are struggling or performing below state proficiency grade level standards. For those students who need extra help in any subject area, a Problem Solving Team pulls together school and family resources to identify and develop strategies to help students improve academic and/or behavioral performance. Intervention strategies include:

- Linda Mood Bell
- Successmaker
- After School Tutoring - Migrant & Low Performing

Supplementary instructional materials are purchased as needed to support intervention programs. Classroom teachers monitor student performance on district benchmark assessments, daily classwork, homework, and end-of-unit tests to measure ongoing academic progress and adjust instructional needs.

Enrichment Programs

King Elementary School offers an all day kindergarten program, a band program to all fourth grade students, and an orchestra program to all fifth grade students who wish to participate. All kindergarten and sixth grade students can participate in the After School Education & Safety (ASES) Program which offers enrichment programs in science, visual arts, performing arts, and physical education.

Instructional Materials

All textbooks used in the core curriculum at King Elementary School are aligned to the California Content Standards and Frameworks. Instructional materials are selected from the state's most recent list of standards-based materials and adopted by the State Board of Education. The District follows the State Board of Education's six-year adoption cycle for core content materials (English/language arts, math, science, and social science).

On Tuesday, October 8, 2013, the El Centro Elementary School District held a public hearing to certify the extent to which textbooks and instructional materials have been provided to students. The Governing Board adopted Resolution #100813-1012 which certifies as required by Education Code §60119 (1) that textbooks and instructional materials were provided to all students, including English learners, in the District to the extent that each pupil has a textbook or instructional materials, or both, to use in class and to take home, and (2) sufficient textbooks and instructional materials were provided to each student, including English learners, that are aligned to the academic content standards and consistent with the cycles and content of the curriculum frameworks in math, science, history-social science, and English/language arts, including the English language development component of an adopted program, and 3) each pupil enrolled in a foreign language has sufficient textbooks or instructional materials that are consistent with the content and cycles of the curriculum frameworks adopted by the State Board for those subjects. In addition to core subject areas, districts are required to disclose in their SARC's the sufficiency of instructional materials used for their visual/performing arts curricula. During the 2013-14 school year, El Centro Elementary School District provided each student, including English

learners, enrolled in a visual/performing arts class with a textbook or instructional materials to use in class and to take home. These materials complied with the state's content standards and curriculum frameworks.

Staff Development

All training and curriculum development activities at King Elementary School revolve around the California State Content Standards and Frameworks.

Staff Development Days Three-Year Trend		
2010-11	2011-12	2012-13
3	3	2

During the 2012-13 school year, King Elementary School held staff development devoted to:

- District Pacing Guides
- Formative Assessments
- Social Science & Science Training
- Data Analysis
- English Language Arts Program Resources
- SPARKS Training
- Unit 1 Planning
- Common Core State Standards
- English Language Arts Grade Level
- Frontloading Science
- Non-Violent Crisis Prevention Intervention
- School Business

Decisions concerning selection of staff development activities are performed by all staff using tools such as teacher input and data analysis to determine the areas in which additional teacher training may enhance classroom instruction and increase student achievement levels. King Elementary School supports ongoing professional growth throughout the year on minimum days and early release days. Teachers meet in both grade level and department level teams to conduct data analysis to identify areas of need.

King Elementary School offers support to new and veteran teachers through peer coaching and mentoring. Instructional aides are provided targeted training focused on teaching strategies and curriculum content. All staff are encouraged to attend professional workshops and conferences. Classified support staff receive job-related training from department supervisors and district representatives.

Discipline & Climate for Learning

King Elementary School's discipline policies are based upon a schoolwide discipline plan, which is used as a guide to develop school rules, develop behavior management programs, promote responsibility, promote respect, and minimize classroom disruptions. Teachers clearly identify and explain behavior expectations to their students and discuss consequences for poor or disruptive behavior in the classroom. King Elementary School employs a progressive approach in managing students who make poor choices in behavior, do not follow school rules, or are disruptive in the classroom.

Student Achievement Standardized State Assessments

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs), the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The CSTs show how well students are doing in relation to the state content standards. The CSTs include English/language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and ten through eleven.

Student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and

Physical Fitness

In the spring of each year, King Elementary School is required by the state to administer a physical fitness test to all students in grade five. The physical fitness test measures each student's ability to complete six fitness tasks in six major areas. Students that either meet or exceed the standards in all six fitness areas are considered to be physically fit or in the "healthy fitness zone." Comparative district and state results can be found at the CDE's Website www.cde.ca.gov/ta/tg/pf/.

Academic Performance Index

California uses the results of STAR testing to calculate the Academic Performance Index (API) which is used to measure school performance, set academic growth targets, and monitor progress over time. The API is a numeric index between 200-1000 that measures student performance in grades two through eleven. An API score of 800 is the state's designated performance target for all schools. Test results are weighted and a formula is applied to determine API.

Growth Targets: For schools with an API under 800, the state requires a gain of 5% of the difference between the school's actual API and 800. Growth Targets apply not only schoolwide, but to each numerically significant subgroup as well.

Schools/subgroups that have achieved an API of 800 or above must maintain their scores. Statewide Rank: All schools in California are categorized according to type (elementary, middle, high) and are placed on a scale of 1 to 10, with 10 being the highest.

Similar Schools Rank: School performance is also compared to other similar schools in the state, based on demographic characteristics, and ranked 1 to 10 within a grouping of 100 schools.

Adequate Yearly Progress

The Federal No Child Left Behind Act (NCLB) requires that all students perform at or above the proficient level on the state's standards-based assessment by the year 2014. Meeting Adequate Yearly Progress (AYP) milestones helps determine whether students are reaching proficiency level targets set by NCLB. AYP requires annual evaluation and reporting of the academic progress of all students and defined student subgroups.

For the 2012-13 AYP cycle, elementary and middle schools must achieve a 89.2% or higher proficiency rate in English/language arts and 89.5% or higher proficiency rate in math on the California Standards Test (CST). Additional criteria contributing to whether or not a school demonstrates AYP include achieving a 95% or above participation rate on the CST and obtaining an API growth score of 740 or increasing the API growth by 1 point.

More information on AYP can be found on the California Department of Education's (CDE) website www.cde.ca.gov/nclb/ and the U.S. Department of Education's website www.ed.gov/nclb/accountability/.

No Child Left Behind (NCLB)

The No Child Left Behind (NCLB) Act is part of the Federal Title I funding program designed to support additional staffing and programs to meet the needs of low-income, low achieving students, and other designated students with special needs. Schools may apply, based upon their student demographics, for one of two types of Title I funding: Title I Schoolwide or Title I Targeted Assistance. Title I Schoolwide schools use federal funds for schoolwide improvement of student achievement. Title I Targeted

Assistance schools use federal funds to help those students who meet specific program criteria. In 2012-13, King Elementary qualified for Schoolwide Title I funding and is subject to comply with Title I program participation requirements.

Any school receiving Title I funds is required to comply with respective program testing and reporting activities, achieve specific levels of student proficiency, and monitor school progress towards meeting established goals. California Adequate Yearly Progress calculations determine whether a Title I school has met performance goals. Schools not meeting specific AYP criteria enter Program Improvement, a monitoring system and curriculum enhancement program designed to help schools to increase student proficiency levels. More information about Title I and Program Improvement can be located on the CDE's website www.cde.ca.gov/ta/ac/ti/.

Professional Staff

Counseling & Support Staff

King Elementary School provides professional, highly qualified staff who provide additional services and support centered on the whole student academically, physically, and mentally. The Counseling and Support Services table in this report illustrates the availability of non-instructional support staff to King Elementary School's students.

Full-time equivalent (FTE) is a standard measurement used to identify an employee's regular work load on a weekly basis. For example, an FTE of 1.0 designates a full-time position and the employee is on campus and available all day every day of the week; an FTE of 0.5 indicates that the staff member is available and on campus a portion (50%) of the week.

Teacher Assignment

During the 2012-13 school year, King Elementary School had 15 teachers who met all credential requirements in accordance with state guidelines. The Federal No Child Left Behind Act requires that all teachers in core subject areas meet certain requirements in order to be considered as "NCLB Compliant." Minimum qualifications include: possession of a bachelor's degree, possession of an appropriate California teaching credential, and demonstrated competence in core academic subjects.

In the table in this report, which identifies the number of classrooms taught and not taught by NCLB-compliant teachers, high poverty schools are those schools in the highest quartile for student participation defined by the free and reduced price meal program. Low poverty schools are those schools that are in the lowest quartile of program participation.

Facilities & Safety

The district takes great efforts to ensure that all schools are clean, safe, and functional through proper facilities maintenance and campus supervision. King Elementary School's original facilities were built in 2000, and ongoing maintenance and campus improvements ensure facilities remain up to date and provide adequate space for students and staff. In the last 12 months, the following campus repair/improvement projects were completed:

- Repaired lights in parking lots
- Installation of new carpet in some classrooms
- Installation of new door locks
- Landscaping throughout campus
- Installation of a new HVAC system

District maintenance and site custodial staff ensure that the repairs necessary to keep the school in good condition are completed in a timely manner. A work order process is used by school and district staff to communicate non-routine maintenance requests. Emergency repairs are given the highest priority.

Every morning before school begins, the custodian inspects the facilities for safety hazards or other conditions that need attention prior to students and staff entering school grounds. One day custodian and one evening custodian are assigned to King Elementary School. The day custodian is responsible for:

- Cafeteria setup/cleanup
- Classroom cleaning
- Restroom cleaning
- Trash removal

Restrooms are checked regularly throughout the day for cleanliness and subsequently cleaned as needed. The evening custodian is responsible for:

- Classroom cleaning
- Common use area cleaning
- Office area cleaning
- Restroom cleaning

The principal communicates with custodial staff on an as-needed basis concerning maintenance and school safety issues.

Campus Supervision

School administration and teaching staff place a high priority on providing adequate adult supervision on campus before, during, and after school. As students arrive on campus each morning, the principal, the custodian, the resource clerk, and five playground supervisors are strategically assigned to designated entrance areas, the breakfast area and playground. During recess, teachers supervise playground activity. Playground supervisors monitor lunch time activity in the cafeteria and on the playground. At the end of the day when students are dismissed, playground supervisors monitor student behavior to ensure a safe and orderly departure.

King Elementary is a closed campus. During school hours, all visitors must sign in at the school's office and wear identification badges while on school grounds.

School Site Safety Plan

The Comprehensive School Site Safety Plan was developed for King Elementary in collaboration with local agencies and the district office to fulfill Senate Bill 187 requirements. Components of this plan include child abuse reporting procedures, teacher notification of dangerous pupil procedures, disaster response procedures, procedures for safe arrival and departure from school, sexual harassment policy, and dress code policy. The school's safety plan is reviewed, updated, and discussed with staff on an annual basis.

Deferred Maintenance

King Elementary School participates in the State School Deferred Maintenance Program, which provides dollar-for-dollar matching funds to assist school districts with major repairs or replacement of existing school building components. Deferred maintenance projects generally include roofing, plumbing, heating, air conditioning, electrical systems, interior/exterior painting, and floor systems. During the 2012-13 school year, the El Centro Elementary School District did not receive any deferred maintenance funds.

Facilities Inspection

The district's maintenance department inspects King Elementary on an annual basis in accordance with Education Code §17592.72(c) (1). King Elementary uses a school site inspection survey to identify unsafe or hazardous conditions and facility improvement needs. The most recent school inspection took place on September 13, 2013. Deficiencies noted in the school inspection survey were corrected immediately by the district's

maintenance department. During fiscal year 2012-13, all restrooms were fully functional and available for student use.

Expenditures Per Student

For the 2011-12 school year, El Centro Elementary School District spent an average of \$7,647 of total general funds to educate each student (based on 2011-12 audited financial statements and in accordance with calculations defined in Education Code §41372). The table in this report 1) compares the school's per pupil expenditures from unrestricted (basic) and restricted (supplemental) sources with other schools in the District and throughout the state, and 2) compares the average teacher salary at the school site with average teacher salaries at the district and state levels. Detailed information regarding salaries can be found at the CDE website at www.cde.ca.gov/ds/fd/ec/ and www.cde.ca.gov/ds/fd/cs/. (The figures shown in the table below reflect the direct cost of educational services, per ADA, excluding food services, facilities acquisition and construction, and certain other expenditures.)
